Part number WIZ022GLBK-B1

Belkin - Wireless charging pad - portable - 5 Watt - Fast Charge - black

The Belkin BoostCharge wireless charging pad is a portable, eco-friendly power solution designed specifically for smart watches. With its Fast Charge technology, it provides quick and efficient charging, ensuring your device is always ready when you are. Made from 75% recycled post-consumer plastic, it not only supports your tech needs but also promotes environmental sustainability. Its compact design makes it an ideal travel companion, offering a clutter-free charging experience without the hassle of cables. Additionally, the charger meets MFi compliance standards, ensuring a safe and compatible charge every time. With an Equipment Protection Value of 2500 US Dollars, it offers peace of mind, knowing your smart watch is protected during charging. Whether at home or on the go, the Belkin BoostCharge is the perfect solution for keeping your smart watch powered and ready for whatever the day brings.
